

W H O L E S A L E

FEBRUARY 20th, 1956

PLEASE READ our complete circular before ordering, as there is an important announcement therein, also a change in price of some varieties.

We are allowing you to choose one of a kind in our 39¢ varieties which will give you an assortment of 25 different varieties.

We have a very limited stock of 29¢ varieties wholesale, but these will have to be our selection as this list varies.

We reserve the right to limit the quantity of any variety, prices are subject to change without notice. Since there is a possibility that we maybe temporarily out of some varieties, we would appreciate at least two possible substitutes in some price market. If you do not list substitutes, then we will have to substitute the best varieties available. If you do not wish a substitute please say so and we will refund your money. Please don't order retail parcel post at wholesale price as it is more than just shipping rates involved. We are always working for new varieties which is the demand.

We are always buying and hybridizing for new varieties, but it takes time, we think we can do it as quickly as any one and carry a good assortment. Therefore if some varieties are smaller than usual and not in bloom it is because we have not been able to grow them fast enough. "We aim to please".

Protective Signature, is safest way to have your order shipped, which is an extra over all cost on your order. We suggest that you consult your agent about plant shipments, etc., and if you have trouble take it to the ones in authority.
